Version Control & Tools: Git, GitHub, FileZilla, VS Code
Other Skills: SEO Optimization, Website Deployment, Domain Configuration, Email Hosting Integration
Soft Skills: Project Planning, Client Communication, Problem-Solving, Attention to Detail

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer & Web Designer
Remote & On-site | 2017 – Present

- Designed, developed, and deployed over **50+ responsive websites and web apps** for businesses, startups, and personal brands.
- Built and customized **WordPress** sites with plugins, themes, and full-stack integrations (front-end + PHP backend).
- Managed website migrations, domain setups, and hosting environments.
- Integrated **payment gateways**, **form handlers**, and **REST APIs** for interactive site functionality.
- Created custom dashboards for small business inventory and CRM systems using **PHP and MySQL**.
- Delivered complete brand solutions combining web design, graphics, and SEO optimization.

Legacy Web Solutions – *Full Stack Developer / UI Designer*
Abuja | 2021 – 2025

- Led the design and development of client projects using **HTML, CSS, JavaScript, and PHP**.
- Collaborated with cross-functional teams to build scalable **WordPress** and **custom PHP** sites.
- Designed wireframes and UI mockups with Figma before development.
- Improved load speeds by up to **40%** through code optimization and image compression.
- Integrated APIs, contact forms, and analytics dashboards for clients' sites.
- Supervised junior developers and provided code reviews and deployment assistance.

Genesis Creative Studio – *Front-End Developer / Digital Designer*
Abuja | 2018 – 2021

- Converted Figma/PSD layouts into fully responsive web interfaces.
- Developed marketing landing pages, product websites, and micro-sites for campaigns.
- Collaborated closely with backend developers to ensure consistent integration.
- Implemented UI animations and transitions using JavaScript and CSS3.
- Designed graphic assets, brand kits, and digital content for online campaigns.

Stedans Digital Agency – *Web Designer / Technical Assistant*
Lagos | 2016 – 2018

- Built and maintained client websites on **WordPress** and **pure HTML/CSS/JS** stacks.
- Assisted in debugging PHP errors and optimizing database queries.
- Provided on-site support for digital product launches and live event web pages.
- Designed and uploaded graphics for digital ads and web content.

PROJECT HIGHLIGHTS

- **Sarkin Mota Autos** – Responsive auto-dealership website featuring integrated Google Maps and dynamic listing structure.
- **The Digital Wiz** – Personal brand website showcasing web services, digital assistance, and creative design solutions.
- **Legacy CRM Dashboard** – Lightweight full-stack web app for client records and analytics using PHP, MySQL, and Bootstrap.
- **Genesis Booking Portal** – Developed a functional booking and payment system for a local business using WordPress + Paystack API.
